

Girl Scouts of Louisiana – Pines to the Gulf 2024 Cookie Program

Week 9 (February 25 – March 2)

- **CUPBOARD UPDATE:** We have brought in some new product and moved other inventory around to try and meet the needs of troops in all areas. We will evaluate it after the weekend to see if another move is necessary. While the goal is to have the cookies you need, we also want to be good stewards and not have excess inventory at the end of the sale. **March 2 – ALL Cookie Cupboards close.**
- If you have excess cookies left, **PLEASE** communicate it out to your SUCM, Membership Specialist or send it in to info@gsllpg.org. We are here to assist you with moving it out.
- **REMINDER:** As we head into the final couple of weeks of booth sales and troops start to run low on inventory, be sure to turn off individual varieties in Digital Cookies as needed. This needs to be done at the girl level so please communicate it to your parents. We will not be restocking, but we may move around our remaining inventory if the need is there.
- **REWARDS:** All girls rewards will continue to accumulate until March 3 as additional packages are sold. Please remember to allocate all of your cookies and to again check online girl delivery orders. The money shows up on her account, but you have to allocate the cookies when you give them to her. Need assistance, reach out for help.
- Transferring cookies with other troops **MUST** be in multiples of 12 but can be mixed. NOTE: You **cannot** transfer partial cases or cases mixed with cookies of different prices. Please use a receipt and submit to your SUCM or info@gsllpg.org so we can transfer them in eBudde. Exchanging (trading) cookies requires no paperwork or recording in eBudde. Just keep them the same price.
- Cookie Exchange in eBudde is a “bulletin board” of cookies that are available in packages by troop. If a troop has cookies that they can’t sell and they post on the Cookie Exchange, troops that need cookies can use this tool to reach out to the troop leader and make arrangements to pick up the cookies. It is easy to use.
- Once a troop transfers their cookies to another troop, they will need to update the Cookie Exchange tab so that it houses the correct information. If a troop transfers all of their cookies to another troop, they can click the purple Remove My Offering button and that will zero out all varieties.
- Send a reminder to each parent that still owes money and let them know the final deadline for turning in ALL money. DO NOT wait until the very end. Be prepared to fill out a [Product Program Problem Report](#) for parents that have outstanding balances after the program has ended. You must be able to provide GSLPG with receipts of when you gave out cookies and when you received payments in order for your troop not to be responsible for paying that debt.
