

Dear Valued Girl Scout Family Member,

Did you know that women and girls represent the majority of the world's poor? In fact, of the 1 billion poorest people in the world 70% are female. This must change.

That's why for over 100 years, Girl Scouts have inspired others by championing what's right and supporting those in need. Our mission focuses on the powerful investment in women and girls.

The impact is clear: over 50 million women are Girl Scout alumni, with one in three adult women in the U.S. having been involved. An impressive 81% of Girl Scouts feel confident in their abilities, compared to 67% of non-Girl Scouts.

Remarkably, all three women who served as U.S. Secretaries of State are Girl Scout alums, along with 64 women in the Senate and nearly half of the 118th Congress. Many of today's women NASA astronauts also have this proud background.

Investing in women and girls benefits not only them but also their families, communities, and the economy because we know that women reinvest up to 90% of their incomes into their families and communities.

This year, we reaffirm our commitment to unite as One Team with One Mission: to empower every girl to be courageous and confident.

In these challenging times, the Girl Scout Leadership Experience is crucial for girls facing obstacles like poverty. With your support, we can create a brighter future for HER!

**When you contribute to GSLPG's 2025 Family Giving Campaign, together, we can empower women and girls and make a significant impact!**

Sincerely,

GSLPG Development Team

**One Team,  
One Mission.**
